Re: NOTICE TO COMPLY - Detention System Inspection - Maintenance Report

Dear ,

The Georgia Department of Natural Resources (DNR) Environmental Protection Division (EPD), through the City of Sandy Springs, Georgia, the Local Issuing Agency (LIA), provided authorization to discharge storm water from your parcel under the National Pollutant Discharge Elimination System (NPDES). This authorization has clear responsibilities, one of which is the inspection and preparation of an inspection – maintenance report of the authorized storm water system. Maintenance shall be performed as needed based on the results of the inspection.

This letter is your formal notification that you are required to prepare a Storm Water System Inspection Report that complies with the Georgia EPD requirements. A number of qualified Georgia firms are available that provide this service.

Submit the completed Inspection - Maintenance Report to Robert Thorn, Stormwater Officer for the City of Sandy Springs, Georgia. You have until **November 15, 2017** to comply.

Respectfully yours,

Robert Thorn
